Step & Repeat Frame:

ASSEMBLING:

1. The frame can be used with banners that attach with pole pockets or grommets. However, if you attach using grommets, you will need to provide your own zip ties which will likely be exposed on the frame. **Please do not use tape!**
2. The bases are the flat square pieces with a silver cylinder. Tighten the cylinder by turning it clockwise.
3. Slide the black poles into the cylinders and adjust to the correct height by using the clamp built onto the pole. Tighten the clamp once you have adjusted the height.
4. The silver poles are the ones that slide into your vinyl. Adjust the pole to the proper width by using the pressure knobs on the pole. Slide poles into the pole pockets of your vinyl image at both the top and bottom.
5. Hook the vinyl on the top to each side pole by simply placing the silver hook into the receiving end. The bottom pole of your stand hangs free- it does not attach to the side poles.
6. Adjust the bases so that your vinyl hangs evenly. If your stand is pitching forward or back either your bases are not the correct width apart or your base cylinders need tightened.
